SUMMARY

I'm a test-driven frontend dev experienced working with React and Next.js. I have a passion for writing clean, maintainable and scalable code. Skilled in creating UI interfaces, currently working in the Web3 industry.

EXPERIENCE

ULedger, USA (Remote) — *Web Developer*

AUG 2022 – PRESENT

ULedger is a data integrity platform providing enterprise-grade blockchain infrastructure. (www.uledger.io).

- Front-End development and maintenance of UL's applications.
  - Developed User portal, integrated with ULedger SDK (KMS & BMS)for managing organizations users, Web3 app marketplace and explorer.
  - Developed public Blockchain Explorer connected to BE ULedger SDK
  - Developed ULedger Verify a secure email verification service that uses the ULedger blockchain.
- Full-Stack integration of ULedger SDK to UL's API in Nest.js
  - Created UL Microservices Management to connect Frontend Apps to ULedger Blockchain, test coverage and documentation.
  - Developed Versa POC integrating Construction BIM models to Web3 UI interface built with React+Three.js.

Abstract Development Studio, Hn (Remote) — *Frontend Web Developer*

AUG 2022 – PRESENT

- Front-End Development for Contadito App (SaaS).
  - Develop UI & CMS for Contadito with Next.js, GraphQL, Strapi CMS.
  - Achieved 100% test coverage (Jest + React Testing Library).
- UI/UX Design of Landing + CMR integration (Next.js + Tailwind).

Heimat (Startup), Berlin (Remote) — *Jr. Frontend Developer*

MAY 2021 – JULY 2022

- Implemented features for React applications, users module (CRUD) and activity calendar (React + Redux).
- Built UI/UX reusable components with React.Js + TypeScript, fully tested with Jest and React Testing Library.

TECH STACK

TypeScript | React.js | Next.js | GraphQL | Jest | NPM | Git
